CROCHET PATTERN

Rose Heart Tassel Ornament

A stuffed crochet heart on a beaded cord with a full tassel

SKILL LEVEL	FINISHED SIZE	YARN	HOOK
Intermediate	≈ 19 cm (7.5 in) plus an 8 cm loop	DK cotton · 2 colours	2.5 mm (US B/1–C/2)

A plump heart made from two single-crochet pieces joined with a round of sc and stuffed, strung on a cord with wooden and gold beads above a full tassel. Worked flat in rows; the tassel is tied directly onto the hanging cord.

Status: ready for a sample knit — every size checked by code, not yet test-knitted

QA report for the designer — not part of the pattern you sell or share.

MATERIALS · GAUGE · ABBREVIATIONS

Before You Begin

Materials & Tools

Yarn A (heart, tassel)	DK (#3) cotton, dusty rose — approx. 14 m (15 yd), about 6 g — 1 ball of 50 g (about 115 m) is enough
Yarn B (hanging cord)	DK (#3) cotton, cream — approx. 3 m (4 yd), about 2 g — 1 ball of 50 g (about 115 m) is enough
Hook	2.5 mm (US B/1–C/2)
Beads	4 gold-tone beads 6 mm (hole at least 2.5 mm); 2 natural wooden beads 12 mm (hole at least 3 mm). Both cord strands must pass through each bead together — test before you start.
Notions	fiberfill (a small handful), tapestry needle, stiff card for the tassel, scissors, stitch marker

Gauge

GAUGE 22 sc and 24 rows/rnds = 10 cm (4 in) in single crochet with a 2.5 mm hook. Gauge is not critical for an ornament, but work firmly so that stuffing does not show and flat pieces keep their shape; sizes depend on your tension.

How to swatch: Optional density check: ch 12, then work 10 rows of sc on 11 sts. The square should measure about 5 cm (2 in) wide and 4 cm (1.6 in) tall. If it is larger or you see gaps between stitches, use a smaller hook.

Finished Measurements

Part	Width	Height
Heart (stuffed)	≈ 4.5 cm (1.8 in)	≈ 4 cm (1.6 in)
Tassel	–	9 cm (3.5 in)
Whole ornament without loop	–	≈ 19 cm (7.5 in)

CHOOSING A SIZE One size. For a larger ornament use light worsted (#4) cotton and a 3 mm hook; for a smaller one use sport-weight cotton and a 2 mm hook. Beads and tassel length can be changed freely.

Abbreviations (US terms)

ch	chain	**sl st**	slip stitch
sc	single crochet	**st(s)**	stitch(es)
inc	2 sc in the same stitch	**rnd(s)**	round(s)
sc2tog	single crochet 2 together	**( ) xN**	work the sequence in brackets N times

Pattern Notes

- Joined rounds (where a round says "Join"): start the round with ch 1, which does not count as a stitch, and finish it with a sl st into the first stitch.
- US crochet terms are used throughout.
- The number in parentheses at the end of a row or round is the number of stitches you should have when it is finished. Tick the box when you finish each step.
- Rows: ch 1 at the start of a row does not count as a stitch; rounds worked in a magic ring are worked in continuous spirals unless the round says "join".
- Leave a 20 cm (8 in) tail when you fasten off a piece that will be sewn; weave in all other ends on the wrong side as you go.

Techniques

sc2tog (flat pieces) — Insert the hook in the next st, yo and pull up a loop; insert in the following st, yo and pull up a loop (3 loops on hook); yo and draw through all 3.

Joining new yarn with a standing sc — Make a slip knot on the hook, insert the hook in the stitch, yo, pull up a loop, yo and draw through both loops. This sc counts as the first stitch.

Joining two pieces with sc — Hold the pieces wrong sides together with the edges matching. Insert the hook through the stitch or row-end of BOTH pieces at once and work the sc as usual, so one round of sc joins and edges them.

Tassel neck wrap — Lay a 5 cm loop of the wrapping strand along the tassel, pointing down. Wrap the long end tightly around tassel and loop, from the top down. Pass the end through the loop, then pull the short tail at the top until the loop disappears under the wraps. Trim both ends and hide them in the skirt.

YARN A • MAKE 2 PIECES, THEN JOIN

Heart

Each heart piece is worked in rows from the bottom point upwards, then the two lobes are finished separately. The two pieces are joined with a round of sc and stuffed before closing.

Heart piece (make 2)

☐	**Row 1**	Ch 2, 3 sc in 2nd ch from hook. Ch 1, turn.	**(3)**
☐	**Row 2**	inc, sc 1, inc. Ch 1, turn.	**(5)**
☐	**Row 3**	inc, sc 3, inc. Ch 1, turn.	**(7)**
☐	**Row 4**	inc, sc 5, inc. Ch 1, turn.	**(9)**
☐	**Rows 5–6**	sc 9. Ch 1, turn (2 rows).	**(9)**
☐	**Row 7**	First lobe: sc 4; leave the remaining 5 sts unworked. Ch 1, turn.	**(4)**
☐	**Row 8**	sc2tog twice. Fasten off.	**(2)**
☐	**Row 7**	Second lobe: skip the next (centre) st of Row 6 and join the yarn in the following st with a standing sc; sc in the last 3 sts. Ch 1, turn.	**(4)**
☐	**Row 8**	sc2tog twice. Fasten off and weave in the ends.	**(2)**

Joining round

☐	**Rnd 1**	Place the two pieces wrong sides together, lobes at the top. Join the yarn at the centre dip and work through both layers: sc in the skipped centre st, sc in each of 2 row-ends up the inner side of the first lobe, inc in each of its 2 top sts, sc in each of 2 row-ends down its outer side, sc in each of 6 row-ends down the side, 3 sc in the bottom point, sc in each of 6 row-ends up the other side, sc in each of 2 row-ends up the outer side of the second lobe, inc in each of its 2 top sts, sc in each of 2 row-ends down its inner side.	**(32)**
		Stuff the heart firmly through the last 6–8 sts before you work them, pushing stuffing into the lobes and the point first. Join with a sl st to the first sc and fasten off; hide the end inside the heart.	

YARN A + YARN B FOR THE CORD

Tassel

The tassel is made first: the hanging cord is tied into its top, so the cord runs through the whole ornament and is anchored in the tassel.

☐	**Step 1**	Cut a piece of stiff card 19 cm (7.5 in) tall. Wrap Yarn A (dusty rose) around the card 40 times, keeping the wraps side by side and not too tight. Cut the yarn at the bottom edge.
☐	**Step 2**	Cut the hanging cord: one 100 cm (39 in) length of Yarn B (cream). Slide it under all the wraps along the top edge of the card so that its middle sits there, and tie it in a tight square knot around the wraps. Both cord ends now point upwards.
☐	**Step 3**	Cut through all the wraps along the bottom edge of the card and remove the card. Let the strands hang down from the cord knot.
☐	**Step 4**	Tassel neck: cut a 70 cm length of Yarn A. Measure 2 cm down from the top fold and wrap it tightly 8 times around the bundle (see Tassel neck wrap in Techniques).
☐	**Step 5**	Trim the skirt evenly to 9 cm (3.5 in) from the top fold. Hold it over steam (or dampen it) and comb the strands straight with your fingers; let it dry hanging.

Assembly & Finishing

- Thread both cord ends together through a large-eye tapestry needle (or a bead needle with a big eye). Work upwards from the tassel.
- String, from the tassel upwards: 1 gold bead → 1 wooden bead → 1 gold bead → the heart → 1 gold bead → 1 wooden bead → 1 gold bead.
- To pass through the heart: push the needle in at the centre of the bottom point and bring it out at the centre dip between the lobes, keeping it in the stuffing. Pull the cords through gently so the heart is not squashed.
- Push everything down snugly onto the tassel so there are no gaps. Holding both cord ends together, tie one overhand knot right above the top bead to lock the stack.
- Hanging loop: tie the two cord ends together with a square knot so that the loop measures 8 cm (3 in) from the overhand knot to the top. Trim the ends to 5 mm and add a drop of fabric glue to the knot if you like.

SAFETY This is a decoration, not a toy, and not suitable for children under 3 years. Beads and cords are a choking and strangling hazard: hang it out of reach of babies, young children and pets.

Checkpoints & Troubleshooting

Stop and count at these points — every number is the stitch count on your needle after that step, exactly as printed in the rows.

Piece	Count	One size
Heart piece (make 2)	after: Row 1	3
	after: Row 2	5
	after: Row 4	9
	after: Row 8	2
Heart: joining round	after: Rnd 1	32

If your count doesn't match

- **Count at every checkpoint.** One stitch out: look back to the last checkpoint for a missed or doubled increase or decrease and put it right there. A lifeline (a smooth thread run through a finished row) lets you rip back safely to a row you know is right.
- **Piece longer or shorter than expected for the rows:** your row gauge differs. Lengths are worked to the measurement given, so measure the piece flat, without stretching, and follow the cm.
- **Shaping lines look ragged:** work the decreases at the same distance from the edge every time, as written, so the seams and bands have a straight edge to follow.
- **Working in rounds:** place a marker at the start of the round and move it up every round — most count errors in rounds come from a lost round start.

APPENDIX

Photo Analysis & Assumptions

One product photo (rendered look) plus an infographic with step images; no scale reference other than the beads.

HOW ACCURATE IS THIS? **Overall confidence: Medium.** Sizes are scaled from the photo using the 12 mm wooden beads as the reference; the photos look like rendered images, so stitch counts are a design reconstruction, not a count from a real sample. Make the piece once and compare before selling the pattern.

Quality status

Generation and verification are separate: the instructions come from a stitch-level model, and independent code checks every size. 'PASS' means verified by computation, not that a sample has been knitted.

Check	Result	Details
Math (stitch counts)	**PASS**	every step's count = previous + increases − decreases, for every size
Row execution	**PASS**	6 modelled step(s) expanded stitch by stitch; 0 failure(s)
Construction & assembly	**PASS**	3 piece(s): each one closes or has a sewing tail; stuffing and assembly covered
Row-gauge sensitivity	**N/A**	every round is counted, nothing is worked to a length
Completeness & clarity	**PASS**	tech edit: 0 error(s), 0 note(s)
Design risk	**PASS**	no abrupt stitch jumps
Visual match to photo	**PASS**	5 feature(s) compared, 4 measured; all within ±5 % / exact counts; analysis confidence Medium
Evidence ledger	**PASS**	5 feature(s): 2 seen, 3 inferred, 0 design choice(s)
Yarn consumption	**WARNING**	based on area estimate
PDF text check	**PASS**	every stitch count of the model found in the PDF text
Customer wording	**PASS**	pattern text only — no QA, photo or test remarks
PDF rendering	**PASS**	all characters exist in the fonts; no text outside the page
Physical sample test	**NO**	no sample made yet — make the gauge swatch and, ideally, a sample

STATUS Release status: **READY_FOR_SAMPLE**. All computed checks pass. The pattern has not been knitted yet: swatch first, and treat sizes and yarn amounts as estimates until a sample confirms them.

What the photos show

Seen = visible in a photo; **Inferred** = deduced from what is visible; **Design choice** = not visible, chosen so the pattern is complete.

Feature	Evidence in photo	Conclusion	Basis
Craft	Short x-shaped stitches stacked like bricks	Crochet, sc	Seen · High

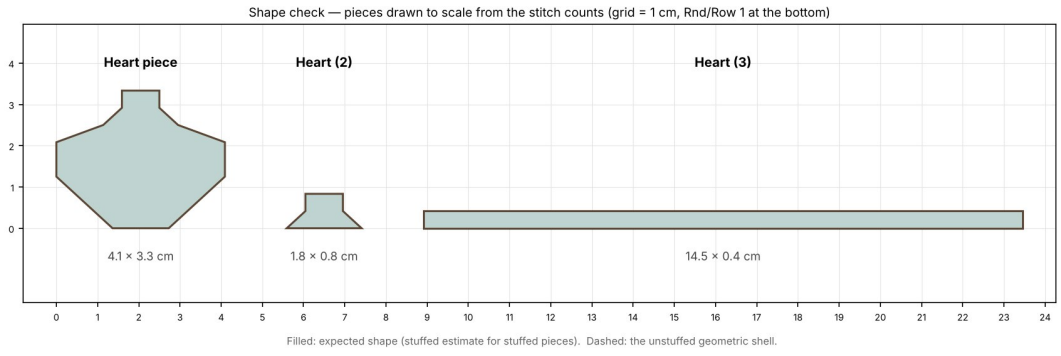

Feature	Evidence in photo	Conclusion	Basis
Heart construction	Puffy heart with a seam ridge around the edge; step image shows two flat hearts	Two flat sc pieces joined with sc and stuffed	Seen · High
Heart size	Heart ≈ 3.9 × the 12 mm wooden bead wide	≈ 4.7 × 3.9 cm	Inferred · Medium
Hanging cord and beads	Cream cord loop above a gold–wood–gold bead stack; same stack below the piece	Cord tied into the tassel top and threaded up through beads and piece	Inferred · Medium
Tassel	Long full tassel with a rounded head and a wrapped neck	Wrapped-card tassel, about 40 wraps, neck wrapped 8 times	Inferred · Medium

Predicted result vs the photos

The finished piece predicted from the stitch counts and gauge, compared feature by feature with the photographs.

Feature	In the photos	This pattern gives	Match
Heart width : height	1.20	≈ 4.5 / 3.9 cm stuffed = 1.15	Yes
Tassel : heart height	≈ 2.3	9 / 4 = 2.25	Yes
Edge	Raised seam ridge around the heart	sc joining round through both layers	Yes
Gold beads	4 in the bead stacks	4	Yes
Wooden beads	2 in the bead stacks	2	Yes

Shape check

Pieces simulated from the stitch counts and gauge.

Assumptions you may want to adjust

- Bead sizes taken from the materials list (8–12 mm); the large wooden beads are taken as 12 mm.
- Stitch counts are designed to give the photographed proportions; the photo is not a countable sample.

THANK YOU Thank you for making this ornament. Happy crocheting!
