CROCHET PATTERN

Sage Leaf Hanging Ornament

Two ribbed crochet leaves with embroidered veins on a beaded cord

SKILL LEVEL	FINISHED SIZE	YARN	HOOK
Intermediate	≈ 27 cm (10.6 in) plus an 8 cm loop	DK cotton · 3 colours	2.5 mm (US B/1–C/2)

Two leaves worked in back-loop single-crochet rows around a foundation chain, which gives the chevron ridges, finished with an embroidered vein and strung with wooden and gold beads above a cream tassel.

Status: ready for a sample knit — every size checked by code, not yet test-knitted

QA report for the designer — not part of the pattern you sell or share.

MATERIALS · GAUGE · ABBREVIATIONS

Before You Begin

Materials & Tools

Yarn A (main leaf)	DK (#3) cotton, dark sage green — approx. 4 m (4 yd), about 2 g — 1 ball of 50 g (about 115 m) is enough
Yarn B (accent leaf)	DK (#3) cotton, light sage green — approx. 3 m (4 yd), about 2 g — 1 ball of 50 g (about 115 m) is enough
Yarn C (veins, tassel, cord)	DK (#3) cotton, cream — approx. 12 m (14 yd), about 6 g — 1 ball of 50 g (about 115 m) is enough
Hook	2.5 mm (US B/1–C/2)
Beads	3 gold-tone beads 6 mm (hole at least 2.5 mm); 2 natural wooden beads 12 mm (hole at least 3 mm); 1 natural wooden bead 10 mm (hole at least 3 mm). Both cord strands must pass through each bead together — test before you start.
Notions	tapestry needle, stiff card for the tassel, 2 stitch markers, scissors

Gauge

GAUGE 22 sc and 24 rows/rnds = 10 cm (4 in) in single crochet with a 2.5 mm hook. Gauge is not critical for an ornament, but work firmly so that stuffing does not show and flat pieces keep their shape; sizes depend on your tension.

How to swatch: Optional density check: ch 12, then work 10 rows of sc on 11 sts. The square should measure about 5 cm (2 in) wide and 4 cm (1.6 in) tall. If it is larger or you see gaps between stitches, use a smaller hook.

Finished Measurements

Part	Width	Length
Main leaf (without stem)	≈ 5 cm (2 in)	≈ 7.5 cm (3 in)
Accent leaf (without stem)	≈ 3.4 cm (1.3 in)	≈ 4.4 cm (1.7 in)
Tassel	–	9 cm (3.5 in)

CHOOSING A SIZE One size. For a larger ornament use light worsted (#4) cotton and a 3 mm hook; for a smaller one use sport-weight cotton and a 2 mm hook. Beads and tassel length can be changed freely.

Abbreviations (US terms)

ch	chain	**BLO**	back loop only
sc	single crochet	**st(s)**	stitch(es)
sl st	slip stitch		

Pattern Notes

- Joined rounds (where a round says "Join"): unless the round says otherwise, start the round with ch 1, which does not count as a stitch, and finish it with a sl st into the first stitch.
- Right side: for pieces worked in rounds, the outside of the rounds; for pieces worked in rows, choose the neater side and mark it. "Wrong sides together" means the marked right sides face out.
- US crochet terms are used throughout.
- The number in parentheses at the end of a row or round is the number of stitches you should have when it is finished. Tick the box when you finish each step.
- Rows: ch 1 at the start of a row does not count as a stitch; rounds worked in a magic ring are worked in continuous spirals unless the round says "join".
- Leave a 20 cm (8 in) tail when you fasten off a piece that will be sewn; weave in all other ends on the wrong side as you go.

Techniques

Embroidered vein (surface chain) — Thread a tapestry needle with the vein colour. Bring it up at the base, make a chain stitch along the centre line (each stitch about 4 mm long) and finish at the tip; secure both ends on the back.

Tassel neck wrap — Lay a 5 cm loop of the wrapping strand along the tassel, pointing down. Wrap the long end tightly around tassel and loop, from the top down. Pass the end through the loop, then pull the short tail at the top until the loop disappears under the wraps. Trim both ends and hide them in the skirt.

YARN A (DARK GREEN) · MAKE 1

Main Leaf

The leaf is worked in rows around both sides of a foundation chain. Each row goes up one side, round the tip and down the other side, and stops 3 sts short, so the base becomes pointed and the back-loop rows form chevron ridges.

☐	**Row 1**	Foundation: make a chain of 12. Sc in 2nd ch from hook and in next 9 ch, 3 sc in last ch; working along the other side of the chain, sc in next 10 ch. Ch 1, turn.	**(23)**
☐	**Row 2**	Working in BLO: sc in next 11 sts, 3 sc in next st (the centre tip st), sc in next 8 sts; leave the last 3 sts unworked. Ch 1, turn.	**(22)**
☐	**Row 3**	Working in BLO: sc in next 9 sts, 3 sc in next st (the centre tip st), sc in next 9 sts; leave the last 3 sts unworked. Ch 1, turn.	**(21)**
☐	**Row 4**	Working in BLO: sc in next 10 sts, 3 sc in next st (the centre tip st), sc in next 7 sts; leave the last 3 sts unworked. Ch 1, turn.	**(20)**
☐	**Row 5**	Working in BLO: sc in next 8 sts, 3 sc in next st (the centre tip st), sc in next 8 sts; leave the last 3 sts unworked. Ch 1, turn.	**(19)**
☐	**Row 6**	Working in BLO: sc in next 9 sts, 3 sc in next st (the centre tip st), sc in next 6 sts; leave the last 3 sts unworked. Do not turn.	**(18)**
		Stem: ch 5, sl st in 2nd ch from hook and in next 3 ch. Sl st into the base of the leaf and fasten off.	

TIP Mark the centre tip st (the middle of each 3-sc group) with a stitch marker and move it up every row; it is the st that gets 3 sc in the next row.

YARN B (LIGHT GREEN) · MAKE 1

Accent Leaf

☐	**Row 1**	Foundation: make a chain of 7. Sc in 2nd ch from hook and in next 4 ch, 3 sc in last ch; working along the other side of the chain, sc in next 5 ch. Ch 1, turn.	**(13)**
☐	**Row 2**	Working in BLO: sc in next 6 sts, 3 sc in next st (the centre tip st), sc in next 3 sts; leave the last 3 sts unworked. Ch 1, turn.	**(12)**
☐	**Row 3**	Working in BLO: sc in next 4 sts, 3 sc in next st (the centre tip st), sc in next 4 sts; leave the last 3 sts unworked. Ch 1, turn.	**(11)**
☐	**Row 4**	Working in BLO: sc in next 5 sts, 3 sc in next st (the centre tip st), sc in next 2 sts; leave the last 3 sts unworked. Do not turn.	**(10)**
		Stem: ch 4, sl st in 2nd ch from hook and in next 2 ch. Sl st into the base of the leaf and fasten off.	

YARN C (CREAM)

Leaf Veins

On the right side of each leaf, embroider a vein in surface chain (see Techniques) along the foundation chain, from the base of the stem to 5 mm below the tip.

YARN C (CREAM)

Tassel

The tassel is made first: the hanging cord is tied into its top, so the cord runs through the whole ornament and is anchored in the tassel.

☐	**Step 1**	Cut a piece of stiff card 10 cm (3.9 in) tall. Wrap Yarn C (cream) around the card 40 times, keeping the wraps side by side and not too tight. Cut the yarn at the bottom edge.
☐	**Step 2**	Cut the hanging cord: one 110 cm (43 in) length of Yarn C. Slide it under all the wraps along the top edge of the card so that its middle sits there, and tie it in a tight square knot around the wraps. Both cord ends now point upwards.
☐	**Step 3**	Cut through all the wraps along the bottom edge of the card and remove the card. Let the strands hang down from the cord knot.
☐	**Step 4**	Tassel neck: cut a 70 cm length of Yarn C. Measure 2 cm down from the top fold and wrap it tightly 8 times around the bundle (see Tassel neck wrap in Techniques).
☐	**Step 5**	Trim the skirt evenly to 9 cm (3.5 in) from the top fold. Hold it over steam (or dampen it) and comb the strands straight with your fingers; let it dry hanging.

Assembly & Finishing

- Thread both cord ends together through a large-eye tapestry needle (or a bead needle with a big eye). Work upwards from the tassel.
- String, from the tassel upwards: 1 wooden bead 12 mm → 1 gold bead → the accent leaf (tip down) → 1 wooden bead 10 mm → 1 gold bead → the main leaf (tip down) → 1 gold bead → 1 wooden bead 12 mm.
- To pass through a leaf: with the wrong side facing, run the needle under the stitches along the foundation chain on the back, entering at the tip and coming out at the stem, so the cord is hidden behind the vein. The leaves hang with the tip down and the stem up.
- Push everything down snugly onto the tassel so there are no gaps. Holding both cord ends together, tie one overhand knot right above the top bead to lock the stack.
- Hanging loop: tie the two cord ends together with a square knot so that the loop measures 8 cm (3 in) from the overhand knot to the top. Trim the ends to 5 mm and add a drop of fabric glue to the knot if you like.

SAFETY This is a decoration, not a toy, and not suitable for children under 3 years. Beads and cords are a choking and strangling hazard: hang it out of reach of babies, young children and pets.

Checkpoints & Troubleshooting

Stop and count at these points — every number is the stitch count on your needle after that step, exactly as printed in the rows.

Piece	Count	One size
Main Leaf	after: Row 1	23
	after: Row 2	22
	after: Row 6	18
Accent Leaf	after: Row 1	13
	after: Row 2	12
	after: Row 4	10

If your count doesn't match

- **Count at every checkpoint.** One stitch out: look back to the last checkpoint for a missed or doubled increase or decrease and put it right there. A lifeline (a smooth thread run through a finished row) lets you rip back safely to a row you know is right.
- **Piece longer or shorter than expected for the rows:** your row gauge differs. Lengths are worked to the measurement given, so measure the piece flat, without stretching, and follow the cm.
- **Shaping lines look ragged:** work the decreases at the same distance from the edge every time, as written, so the seams and bands have a straight edge to follow.
- **Working in rounds:** place a marker at the start of the round and move it up every round — most count errors in rounds come from a lost round start.

APPENDIX

Photo Analysis & Assumptions

One product photo plus infographic steps; scale from the wooden beads.

HOW ACCURATE IS THIS? **Overall confidence: Medium.** Sizes are scaled from the photo using the 12 mm wooden beads as the reference; the photos look like rendered images, so stitch counts are a design reconstruction, not a count from a real sample. Make the piece once and compare before selling the pattern.

Quality status

Generation and verification are separate: the instructions come from a stitch-level model, and independent code checks every size. 'PASS' means verified by computation, not that a sample has been knitted.

Check	Result	Details
Math (stitch counts)	**PASS**	every step's count = previous + increases − decreases, for every size
Row execution	**NOT MODELLED**	add 'ops' to steps so rows can be executed by code
Construction & assembly	**PASS**	2 piece(s): each one closes or has a sewing tail; stuffing and assembly covered
Row-gauge sensitivity	**N/A**	every round is counted, nothing is worked to a length
Completeness & clarity	**PASS**	tech edit: 0 error(s), 0 note(s)
Design risk	**PASS**	no abrupt stitch jumps
Visual match to photo	**WARNING**	5 feature(s) compared, 5 measured; off: Accent : main leaf length +5%; analysis confidence Medium
Evidence ledger	**PASS**	6 feature(s): 2 seen, 4 inferred, 0 design choice(s)
Yarn consumption	**WARNING**	based on area estimate
PDF text check	**PASS**	every stitch count of the model found in the PDF text
Customer wording	**PASS**	pattern text only — no QA, photo or test remarks
PDF rendering	**PASS**	all characters exist in the fonts; no text outside the page
Physical sample test	**NO**	no sample made yet — make the gauge swatch and, ideally, a sample

STATUS Release status: **READY_FOR_SAMPLE**. All computed checks pass. The pattern has not been knitted yet: swatch first, and treat sizes and yarn amounts as estimates until a sample confirms them.

What the photos show

Seen = visible in a photo; **Inferred** = deduced from what is visible; **Design choice** = not visible, chosen so the pattern is complete.

Feature	Evidence in photo	Conclusion	Basis
Craft and stitch	Dense short stitches in diagonal ridges on both halves	Crochet, sc in back loops	Seen · Medium

Feature	Evidence in photo	Conclusion	Basis
Construction	Ridges run parallel to the edge on each half, pointed base	Rows worked around a foundation chain, stopping short each row	Inferred · Medium
Vein	Cream line along the centre	Surface chain embroidery	Seen · High
Main leaf size	≈ 4.3 × 6.4 bead widths	≈ 5 × 7.6 cm	Inferred · Medium
Hanging cord and beads	Cream cord loop above a gold–wood–gold bead stack; same stack below the piece	Cord tied into the tassel top and threaded up through beads and piece	Inferred · Medium
Tassel	Long full tassel with a rounded head and a wrapped neck	Wrapped-card tassel, about 40 wraps, neck wrapped 8 times	Inferred · Medium

Predicted result vs the photos

The finished piece predicted from the stitch counts and gauge, compared feature by feature with the photographs.

Feature	In the photos	This pattern gives	Match
Main leaf length : width	1.49	7.45 / 5.0 = 1.49	Yes
Accent : main leaf length	0.56	4.4 / 7.45 = 0.59	Close (+5%)
Leaves	2 leaves, dark above light	Main leaf above accent leaf	Yes
Gold beads	3 in the bead stacks	3	Yes
Wooden beads	3 in the bead stacks	3	Yes

Shape check

Pieces simulated from the stitch counts and gauge.

Assumptions you may want to adjust

- The infographic text suggests sc/hdc/dc/tr; the photographed ridged texture is reproduced with back-loop sc rows instead (design choice).
- Leaves hang tip down as in the photo.

THANK YOU Thank you for making this ornament. Happy crocheting!
