CROCHET PATTERN

Cream Moon & Star Ornament

A stuffed crochet crescent moon and flat star on a beaded cord

SKILL LEVEL	FINISHED SIZE	YARN	HOOK
Intermediate	≈ 24 cm (9.4 in) plus an 8 cm loop	DK cotton · 2 colours	2.5 mm (US B/1–C/2)

A plump crescent moon made from two curved pieces joined with sc and stuffed, with a flat mustard star below, strung on a beaded cord above a cream tassel.

Status: ready for a sample knit — every size checked by code, not yet test-knitted

QA report for the designer — not part of the pattern you sell or share.

MATERIALS · GAUGE · ABBREVIATIONS

Before You Begin

Materials & Tools

Yarn A (moon, tassel, cord)	DK (#3) cotton, cream — approx. 18 m (19 yd), about 8 g — 1 ball of 50 g (about 115 m) is enough
Yarn B (star)	DK (#3) cotton, mustard gold — approx. 3 m (4 yd), about 2 g — 1 ball of 50 g (about 115 m) is enough
Hook	2.5 mm (US B/1–C/2)
Beads	4 gold-tone beads 6 mm (hole at least 2.5 mm); 2 natural wooden beads 12 mm (hole at least 3 mm). Both cord strands must pass through each bead together — test before you start.
Notions	fiberfill (a small handful), tapestry needle, stiff card, pins, scissors

Gauge

GAUGE 22 sc and 24 rows/rnds = 10 cm (4 in) in single crochet with a 2.5 mm hook. Gauge is not critical for an ornament, but work firmly so that stuffing does not show and flat pieces keep their shape; sizes depend on your tension.

How to swatch: Optional density check: ch 12, then work 10 rows of sc on 11 sts. The square should measure about 5 cm (2 in) wide and 4 cm (1.6 in) tall. If it is larger or you see gaps between stitches, use a smaller hook.

Finished Measurements

Part	Width	Height
Moon (stuffed)	≈ 4.5 cm (1.8 in)	≈ 6.5 cm (2.6 in)
Star	≈ 4.2 cm (1.7 in)	≈ 4 cm (1.6 in)
Tassel	–	9 cm (3.5 in)

CHOOSING A SIZE One size. For a larger ornament use light worsted (#4) cotton and a 3 mm hook; for a smaller one use sport-weight cotton and a 2 mm hook. Beads and tassel length can be changed freely.

Abbreviations (US terms)

ch	chain	**MR**	magic ring
sc	single crochet	**st(s)**	stitch(es)
inc	2 sc in the same stitch	**rnd(s)**	round(s)
sc2tog	single crochet 2 together	**( ) xN**	work the sequence in brackets N times
sl st	slip stitch		

Pattern Notes

- Joined rounds (where a round says "Join"): unless the round says otherwise, start the round with ch 1, which does not count as a stitch, and finish it with a sl st into the first stitch.
- Right side: for pieces worked in rounds, the outside of the rounds; for pieces worked in rows, choose the neater side and mark it. "Wrong sides together" means the marked right sides face out.
- US crochet terms are used throughout.
- The number in parentheses at the end of a row or round is the number of stitches you should have when it is finished. Tick the box when you finish each step.
- Rows: ch 1 at the start of a row does not count as a stitch; rounds worked in a magic ring are worked in continuous spirals unless the round says "join".
- Leave a 20 cm (8 in) tail when you fasten off a piece that will be sewn; weave in all other ends on the wrong side as you go.

Techniques

Magic ring (MR) — Wrap the yarn twice around two fingers, insert the hook under both strands, pull up a loop and ch 1 (does not count as a stitch). Work the stitches of Rnd 1 over both strands, then pull the tail firmly to close the centre.

sc2tog (flat pieces) — Insert the hook in the next st, yo and pull up a loop; insert in the following st, yo and pull up a loop (3 loops on hook); yo and draw through all 3.

Joining two pieces with sc — Hold the pieces wrong sides together with the edges matching. Insert the hook through the stitch or row-end of BOTH pieces at once and work the sc as usual, so one round of sc joins and edges them.

Tassel neck wrap — Lay a 5 cm loop of the wrapping strand along the tassel, pointing down. Wrap the long end tightly around tassel and loop, from the top down. Pass the end through the loop, then pull the short tail at the top until the loop disappears under the wraps. Trim both ends and hide them in the skirt.

YARN A (CREAM) · MAKE 2 PIECES, THEN JOIN

Moon

Each crescent piece is worked in rows from the inner curve outwards. Increases in the middle of each row make the piece curve, and the sc2tog at both ends of each row shape the pointed tips.

Moon piece (make 2)

☐	**Row 1**	With Yarn A, ch 15. Sc in 2nd ch from hook and in each ch across. Ch 1, turn.	**(14)**
☐	**Row 2**	sc2tog, (sc 1, inc) x2, sc 2, (inc, sc 1) x2, sc2tog. Ch 1, turn.	**(16)**
☐	**Row 3**	sc2tog, sc 2, (inc, sc 3) x2, inc, sc 1, sc2tog. Ch 1, turn.	**(17)**
☐	**Row 4**	sc2tog, sc 2, (inc, sc 3) x2, inc, sc 2, sc2tog. Ch 1, turn.	**(18)**
☐	**Row 5**	sc2tog, sc 2, inc, sc 4, inc, sc 3, inc, sc 2, sc2tog. Fasten off.	**(19)**

Joining round

☐	**Rnd 1**	Hold the two pieces wrong sides together. Join Yarn A in the last st of Row 5 and work through both layers: sc in each of 5 row-ends down the side, 3 sc in the first foundation ch (tip), sc in each of the next 12 foundation ch along the inner curve, 3 sc in the last foundation ch (other tip), sc in each of 5 row-ends up the side, sc in each of the 19 sts of Row 5 along the outer curve.	**(47)**
		Stuff the moon firmly, tips first, before you close the last 8 sts. Join with a sl st to the first sc and fasten off; hide the end inside.	

YARN B (MUSTARD) · MAKE 1

Star

A small sc circle is worked first; the five points are then worked one after the other directly on its edge, without cutting the yarn, and a slip-stitch edge sharpens the outline.

☐	**Rnd 1**	10 sc in MR. Join.	**(10)**
☐	**Rnd 2**	(sc 1, inc) x5. Join. Do not fasten off; continue with the points.	**(15)**
		Points: each point is worked in rows over 3 sts of Rnd 2; after each point you slip stitch down its side and start the next point in the next st.	
☐	**Row 1**	Point: ch 1, sc in each of the next 3 sts (for the first point, start in the same st as the join); leave the rest of the round unworked. Ch 1, turn.	**(3)**
☐	**Row 2**	sc2tog, sc 1. Ch 1, turn.	**(2)**
☐	**Row 3**	sc2tog. Ch 1; sl st in each of the 2 row-ends down the side of the point, then sl st in the last st used for Row 1 of this point.	**(1)**
		Repeat Rows 1–3 four more times, starting each point in the next st of Rnd 2 (5 points).	
☐	**Edge**	Sl st evenly around the whole star: 1 sl st in each st and row-end, (sl st, ch 1, sl st) in the top of each point. Fasten off and weave in.	

TIP Pin the star flat, spray it lightly with water or starch and let it dry so the points stay straight.

YARN A (CREAM)

Tassel

The tassel is made first: the hanging cord is tied into its top, so the cord runs through the whole ornament and is anchored in the tassel.

☐	**Step 1**	Cut a piece of stiff card 10 cm (3.9 in) tall. Wrap Yarn A (cream) around the card 40 times, keeping the wraps side by side and not too tight. Cut the yarn at the bottom edge.
☐	**Step 2**	Cut the hanging cord: one 120 cm (47 in) length of Yarn A. Slide it under all the wraps along the top edge of the card so that its middle sits there, and tie it in a tight square knot around the wraps. Both cord ends now point upwards.
☐	**Step 3**	Cut through all the wraps along the bottom edge of the card and remove the card. Let the strands hang down from the cord knot.
☐	**Step 4**	Tassel neck: cut a 70 cm length of Yarn A. Measure 2 cm down from the top fold and wrap it tightly 8 times around the bundle (see Tassel neck wrap in Techniques).
☐	**Step 5**	Trim the skirt evenly to 9 cm (3.5 in) from the top fold. Hold it over steam (or dampen it) and comb the strands straight with your fingers; let it dry hanging.

Assembly & Finishing

- Thread both cord ends together through a large-eye tapestry needle (or a bead needle with a big eye). Work upwards from the tassel.
- String, from the tassel upwards: 1 wooden bead → 1 gold bead → the star → 1 gold bead → the moon → 1 gold bead → 1 wooden bead → 1 gold bead.
- Star: hang it with one point up and pass the needle from the bottom valley up through the back of the stitches and out at the top point.
- Moon: hang it with the opening facing right. Pass the needle up through the lower tip from its underside, across the opening, and up through the upper tip, so the moon hangs level.
- Push everything down snugly onto the tassel so there are no gaps. Holding both cord ends together, tie one overhand knot right above the top bead to lock the stack.
- Hanging loop: tie the two cord ends together with a square knot so that the loop measures 8 cm (3 in) from the overhand knot to the top. Trim the ends to 5 mm and add a drop of fabric glue to the knot if you like.

SAFETY This is a decoration, not a toy, and not suitable for children under 3 years. Beads and cords are a choking and strangling hazard: hang it out of reach of babies, young children and pets.

Checkpoints & Troubleshooting

Stop and count at these points — every number is the stitch count on your needle after that step, exactly as printed in the rows.

Piece	Count	One size
Moon piece (make 2)	after: Row 1	14
	after: Row 2	16
	after: Row 5	19
Moon: joining round	after: Rnd 1	47
Star	after: Rnd 1	10
	after: Rnd 2	15
	after: Row 3	1

If your count doesn't match

- **Count at every checkpoint.** One stitch out: look back to the last checkpoint for a missed or doubled increase or decrease and put it right there. A lifeline (a smooth thread run through a finished row) lets you rip back safely to a row you know is right.
- **Piece longer or shorter than expected for the rows:** your row gauge differs. Lengths are worked to the measurement given, so measure the piece flat, without stretching, and follow the cm.
- **Shaping lines look ragged:** work the decreases at the same distance from the edge every time, as written, so the seams and bands have a straight edge to follow.
- **Working in rounds:** place a marker at the start of the round and move it up every round — most count errors in rounds come from a lost round start.

APPENDIX

Photo Analysis & Assumptions

One product photo plus infographic steps; scale from the wooden beads.

HOW ACCURATE IS THIS? **Overall confidence: Medium.** Sizes are scaled from the 12 mm beads. The crescent geometry is calculated, so check the curve after Row 3 of the first piece; the photo looks rendered.

Quality status

Generation and verification are separate: the instructions come from a stitch-level model, and independent code checks every size. 'PASS' means verified by computation, not that a sample has been knitted.

Check	Result	Details
Math (stitch counts)	**PASS**	every step's count = previous + increases − decreases, for every size
Row execution	**PASS**	8 modelled step(s) expanded stitch by stitch; 0 failure(s)
Construction & assembly	**PASS**	4 piece(s): each one closes or has a sewing tail; stuffing and assembly covered
Row-gauge sensitivity	**N/A**	every round is counted, nothing is worked to a length
Completeness & clarity	**PASS**	tech edit: 0 error(s), 0 note(s)
Design risk	**PASS**	no abrupt stitch jumps
Visual match to photo	**WARNING**	4 feature(s) compared, 4 measured; off: Moon height : width +20% (justified), Star : moon height -6%; analysis confidence Medium
Evidence ledger	**PASS**	5 feature(s): 2 seen, 3 inferred, 0 design choice(s)
Yarn consumption	**WARNING**	based on area estimate
PDF text check	**PASS**	every stitch count of the model found in the PDF text
Customer wording	**PASS**	pattern text only — no QA, photo or test remarks
PDF rendering	**PASS**	all characters exist in the fonts; no text outside the page
Physical sample test	**NO**	no sample made yet — make the gauge swatch and, ideally, a sample

STATUS Release status: **READY_FOR_SAMPLE**. All computed checks pass. The pattern has not been knitted yet: swatch first, and treat sizes and yarn amounts as estimates until a sample confirms them.

What the photos show

Seen = visible in a photo; **Inferred** = deduced from what is visible; **Design choice** = not visible, chosen so the pattern is complete.

Feature	Evidence in photo	Conclusion	Basis
Moon	Stuffed cream crescent with a sc edge seam	Two flat crescent pieces joined with sc and stuffed	Seen · High
Crescent shaping	Thick middle, pointed tips	Rows curved by middle increases, tips by sc2tog at row ends	Inferred · Medium

Feature	Evidence in photo	Conclusion	Basis
Star	Mustard five-point star below the moon	Same star as the star ornament	Seen · High
Hanging cord and beads	Cream cord loop above a gold–wood–gold bead stack; same stack below the piece	Cord tied into the tassel top and threaded up through beads and piece	Inferred · Medium
Tassel	Long full tassel with a rounded head and a wrapped neck	Wrapped-card tassel, about 40 wraps, neck wrapped 8 times	Inferred · Medium

Predicted result vs the photos

The finished piece predicted from the stitch counts and gauge, compared feature by feature with the photographs.

Feature	In the photos	This pattern gives	Match
Moon height : width	1.20	6.5 / 4.5 = 1.44	No (+20%)
Star : moon height	0.66	4.0 / 6.5 = 0.62	Close (-6%)
Gold beads	4 in the bead stacks	4	Yes
Wooden beads	2 in the bead stacks	2	Yes

Assumptions you may want to adjust

- Crescent row counts are calculated from the photographed curve, not counted from a sample.

THANK YOU Thank you for making this ornament. Happy crocheting!
