CROCHET PATTERN

Golden Lantern Hanging Ornament

A stuffed crochet lantern with mustard rims and ribs on a beaded cord

SKILL LEVEL	FINISHED SIZE	YARN	HOOK
Intermediate	≈ 21 cm (8.3 in) plus an 8 cm loop	DK cotton · 2 colours	2.5 mm (US B/1–C/2)

A stuffed lantern worked in one piece in spiral rounds — dome top, round body and pointed base — with mustard rims on free front loops and six surface slip-stitch ribs, hung on a beaded cord above a cream tassel.

Status: ready for a sample knit — every size checked by code, not yet test-knitted

QA report for the designer — not part of the pattern you sell or share.

MATERIALS · GAUGE · ABBREVIATIONS

Before You Begin

Materials & Tools

Yarn A (body, tassel, cord)	DK (#3) cotton, cream — approx. 24 m (26 yd), about 11 g — 1 ball of 50 g (about 115 m) is enough
Yarn B (rims, ribs)	DK (#3) cotton, mustard gold — approx. 4 m (4 yd), about 2 g — 1 ball of 50 g (about 115 m) is enough
Hook	2.5 mm (US B/1–C/2)
Beads	4 gold-tone beads 6 mm (hole at least 2.5 mm); 2 natural wooden beads 12 mm (hole at least 3 mm). Both cord strands must pass through each bead together — test before you start.
Notions	fiberfill (about 8 g), stitch markers, long doll needle or tapestry needle, stiff card, scissors

Gauge

GAUGE 22 sc and 24 rows/rnds = 10 cm (4 in) in single crochet with a 2.5 mm hook. Gauge is not critical for an ornament, but work firmly so that stuffing does not show and flat pieces keep their shape; sizes depend on your tension.

How to swatch: Optional density check: ch 12, then work 10 rows of sc on 11 sts. The square should measure about 5 cm (2 in) wide and 4 cm (1.6 in) tall. If it is larger or you see gaps between stitches, use a smaller hook.

Finished Measurements

Part	Width	Height
Lantern (stuffed)	≈ 5.2 cm (2 in) body, rims ≈ 4.3 cm	≈ 8 cm (3.1 in)
Tassel	–	8 cm (3.1 in)

CHOOSING A SIZE One size. For a larger ornament use light worsted (#4) cotton and a 3 mm hook; for a smaller one use sport-weight cotton and a 2 mm hook. Beads and tassel length can be changed freely.

Abbreviations (US terms)

ch	chain	**MR**	magic ring
sc	single crochet	**BLO**	back loop only
inc	2 sc in the same stitch	**st(s)**	stitch(es)
dec	invisible decrease (sc2tog through the front loops)	**rnd(s)**	round(s)
sl st	slip stitch	**( ) xN**	work the sequence in brackets N times

Pattern Notes

- Joined rounds (where a round says "Join"): unless the round says otherwise, start the round with ch 1, which does not count as a stitch, and finish it with a sl st into the first stitch.
- Right side: for pieces worked in rounds, the outside of the rounds; for pieces worked in rows, choose the neater side and mark it. "Wrong sides together" means the marked right sides face out.
- US crochet terms are used throughout.
- The number in parentheses at the end of a row or round is the number of stitches you should have when it is finished. Tick the box when you finish each step.
- Rows: ch 1 at the start of a row does not count as a stitch; rounds worked in a magic ring are worked in continuous spirals unless the round says "join".
- Leave a 20 cm (8 in) tail when you fasten off a piece that will be sewn; weave in all other ends on the wrong side as you go.

Techniques

Magic ring (MR) — Wrap the yarn twice around two fingers, insert the hook under both strands, pull up a loop and ch 1 (does not count as a stitch). Work the stitches of Rnd 1 over both strands, then pull the tail firmly to close the centre.

Spiral rounds — Do not join or turn. Place a stitch marker in the first stitch of each round and move it up as you go.

Invisible decrease (dec) — Insert the hook in the front loop of the next st and in the front loop of the following st (3 loops on hook), yo and draw through 2 loops, yo and draw through the remaining 2 loops.

Joining new yarn with a standing sc — Make a slip knot on the hook, insert the hook in the stitch, yo, pull up a loop, yo and draw through both loops. This sc counts as the first stitch.

Surface chain (embroidered) — Bring the needle out where the line starts. Insert it back into the same hole and bring it out one round (about 4 mm) higher with the yarn under the needle tip; pull through to form a loop. Repeat, each stitch starting inside the previous loop. Anchor the last loop with a tiny stitch.

Tassel neck wrap — Lay a 5 cm loop of the wrapping strand along the tassel, pointing down. Wrap the long end tightly around tassel and loop, from the top down. Pass the end through the loop, then pull the short tail at the top until the loop disappears under the wraps. Trim both ends and hide them in the skirt.

YARN A (CREAM) · MAKE 1

Lantern Body

The lantern is worked in one piece in spiral rounds from the top cap down to the bottom point. Two back-loop rounds leave free front loops for the mustard rims.

☐	**Rnd 1**	With Yarn A, 6 sc in MR.	**(6)**
☐	**Rnd 2**	(sc 1, inc) x3.	**(9)**
☐	**Rnd 3**	(sc 2, inc) x3.	**(12)**
☐	**Rnd 4**	(sc 1, inc) x6.	**(18)**
☐	**Rnd 5**	sc in each st around.	**(18)**
☐	**Rnd 6**	Working in BLO, sc in each st around (the free front loops of Rnd 5 carry the top rim).	**(18)**
☐	**Rnd 7**	(sc 2, inc) x6.	**(24)**
☐	**Rnd 8**	sc 1, inc, (sc 3, inc) x5, sc 2.	**(30)**
☐	**Rnd 9**	(sc 4, inc) x6.	**(36)**
☐	**Rnds 10–15**	sc in each st around (6 rnds).	**(36)**
☐	**Rnd 16**	(sc 4, dec) x6.	**(30)**
☐	**Rnd 17**	sc 1, dec, (sc 3, dec) x5, sc 2. Begin stuffing.	**(24)**
☐	**Rnd 18**	(sc 2, dec) x6.	**(18)**
☐	**Rnd 19**	Working in BLO, sc in each st around (the free front loops of Rnd 18 carry the bottom rim).	**(18)**
☐	**Rnd 20**	sc in each st around. Stuff the body firmly.	**(18)**
☐	**Rnd 21**	(sc 1, dec) x6.	**(12)**
☐	**Rnd 22**	(sc 2, dec) x3.	**(9)**
☐	**Rnd 23**	(sc 1, dec) x3. Finish stuffing, fasten off and close the hole.	**(6)**

YARN B (MUSTARD)

Rims and Ribs

Rims

☐	**Rnd 1**	Top rim: hold the lantern with the magic ring at the top. Join Yarn B with a standing sc in a free front loop of Rnd 5 (this is the first sc); working in the free front loops: inc in the next st, then (sc 1, inc) x8.	**(27)**
☐	**Rnd 2**	sc in each st around. Join with a sl st to the first sc and fasten off.	**(27)**
☐	**Rnd 1**	Bottom rim: join Yarn B with a standing sc in a free front loop of Rnd 18 and work inc in the next st, then (sc 1, inc) x8, working in the free front loops as for the top rim.	**(27)**
☐	**Rnd 2**	sc in each st around. Join with a sl st to the first sc and fasten off.	**(27)**

Ribs: mark 6 columns spaced 6 sts apart around Rnd 12 of the body. Thread a tapestry needle with a 60 cm length of Yarn B. Bring it out under the bottom rim at the first column and embroider a line of surface chain (see Techniques) straight up the column, one chain stitch per round, to just under the top rim (Rnds 18 to 6). Take the needle back into the body and out at the next column; repeat for all 6 ribs. Hide the ends inside the stuffing.

YARN A (CREAM)

Tassel

The tassel is made first: the hanging cord is tied into its top, so the cord runs through the whole ornament and is anchored in the tassel.

☐	**Step 1**	Cut a piece of stiff card 9 cm (3.5 in) tall. Wrap Yarn A (cream) around the card 40 times, keeping the wraps side by side and not too tight. Cut the yarn at the bottom edge.
☐	**Step 2**	Cut the hanging cord: one 110 cm (43 in) length of Yarn A. Slide it under all the wraps along the top edge of the card so that its middle sits there, and tie it in a tight square knot around the wraps. Both cord ends now point upwards.
☐	**Step 3**	Cut through all the wraps along the bottom edge of the card and remove the card. Let the strands hang down from the cord knot.
☐	**Step 4**	Tassel neck: cut a 70 cm length of Yarn A. Measure 2 cm down from the top fold and wrap it tightly 8 times around the bundle (see Tassel neck wrap in Techniques).
☐	**Step 5**	Trim the skirt evenly to 8 cm (3.1 in) from the top fold. Hold it over steam (or dampen it) and comb the strands straight with your fingers; let it dry hanging.

Assembly & Finishing

- Thread both cord ends together through a large-eye tapestry needle (or a bead needle with a big eye). Work upwards from the tassel.
- String, from the tassel upwards: 1 gold bead → 1 wooden bead → 1 gold bead → the lantern → 1 gold bead → 1 wooden bead → 1 gold bead.
- Lantern: push a long needle in at the bottom point (Rnd 23) and out at the centre of the magic ring at the top, straight through the stuffing.
- Push everything down snugly onto the tassel so there are no gaps. Holding both cord ends together, tie one overhand knot right above the top bead to lock the stack.
- Hanging loop: tie the two cord ends together with a square knot so that the loop measures 8 cm (3 in) from the overhand knot to the top. Trim the ends to 5 mm and add a drop of fabric glue to the knot if you like.

SAFETY This is a decoration, not a toy, and not suitable for children under 3 years. Beads and cords are a choking and strangling hazard: hang it out of reach of babies, young children and pets.

Checkpoints & Troubleshooting

Stop and count at these points — every number is the stitch count on your needle after that step, exactly as printed in the rows.

Piece	Count	One size
Lantern Body	after: Rnd 1	6
	after: Rnd 2	9
	after: Rnd 9	36
	after: Rnd 23	6
Rims	after: Rnd 1	27

If your count doesn't match

- **Count at every checkpoint.** One stitch out: look back to the last checkpoint for a missed or doubled increase or decrease and put it right there. A lifeline (a smooth thread run through a finished row) lets you rip back safely to a row you know is right.
- **Piece longer or shorter than expected for the rows:** your row gauge differs. Lengths are worked to the measurement given, so measure the piece flat, without stretching, and follow the cm.
- **Shaping lines look ragged:** work the decreases at the same distance from the edge every time, as written, so the seams and bands have a straight edge to follow.
- **Working in rounds:** place a marker at the start of the round and move it up every round — most count errors in rounds come from a lost round start.

APPENDIX

Photo Analysis & Assumptions

One product photo plus infographic steps; scale from the wooden beads.

HOW ACCURATE IS THIS? **Overall confidence: Medium.** Sizes are scaled from the photo using the 12 mm wooden beads as the reference; the photos look like rendered images, so stitch counts are a design reconstruction, not a count from a real sample. Make the piece once and compare before selling the pattern.

Quality status

Generation and verification are separate: the instructions come from a stitch-level model, and independent code checks every size. 'PASS' means verified by computation, not that a sample has been knitted.

Check	Result	Details
Math (stitch counts)	**PASS**	every step's count = previous + increases − decreases, for every size
Row execution	**PASS**	20 modelled step(s) expanded stitch by stitch; 0 failure(s)
Construction & assembly	**PASS**	3 piece(s): each one closes or has a sewing tail; stuffing and assembly covered
Row-gauge sensitivity	**N/A**	every round is counted, nothing is worked to a length
Completeness & clarity	**PASS**	tech edit: 0 error(s), 0 note(s)
Design risk	**PASS**	no abrupt stitch jumps
Visual match to photo	**PASS**	4 feature(s) compared, 4 measured; all within ±5 % / exact counts; analysis confidence Medium
Evidence ledger	**PASS**	5 feature(s): 1 seen, 3 inferred, 1 design choice(s)
Yarn consumption	**WARNING**	based on area estimate
PDF text check	**PASS**	every stitch count of the model found in the PDF text
Customer wording	**PASS**	pattern text only — no QA, photo or test remarks
PDF rendering	**PASS**	all characters exist in the fonts; no text outside the page
Physical sample test	**NO**	no sample made yet — make the gauge swatch and, ideally, a sample

STATUS Release status: **READY_FOR_SAMPLE**. All computed checks pass. The pattern has not been knitted yet: swatch first, and treat sizes and yarn amounts as estimates until a sample confirms them.

What the photos show

Seen = visible in a photo; **Inferred** = deduced from what is visible; **Design choice** = not visible, chosen so the pattern is complete.

Feature	Evidence in photo	Conclusion	Basis
Shape	Dome cap, round body with vertical mustard ribs, mustard rims top and bottom, cone base	One-piece body in rounds, rims on free loops, ribs in surface sl st	Seen · High

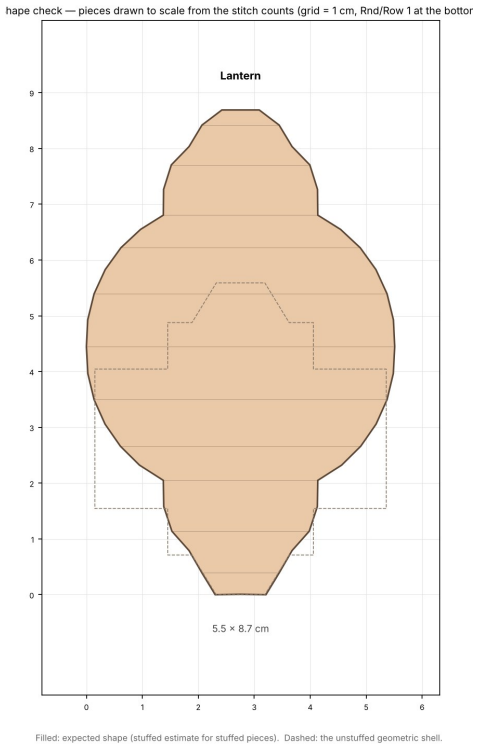

Feature	Evidence in photo	Conclusion	Basis
Infographic	Shows the body, cap and base as separate pieces	Worked in one piece (design choice: no sewing)	Design choice · Medium
Ribs	6 vertical mustard ribs visible on the front half (3–4 seen)	6 ribs	Inferred · Medium
Hanging cord and beads	Cream cord loop above a gold–wood–gold bead stack; same stack below the piece	Cord tied into the tassel top and threaded up through beads and piece	Inferred · Medium
Tassel	Long full tassel with a rounded head and a wrapped neck	Wrapped-card tassel, about 40 wraps, neck wrapped 8 times	Inferred · Medium

Predicted result vs the photos

The finished piece predicted from the stitch counts and gauge, compared feature by feature with the photographs.

Feature	In the photos	This pattern gives	Match
Height : width	1.54	8 / 5.2 = 1.54	Yes
Rims	2	2	Yes
Gold beads	4 in the bead stacks	4	Yes
Wooden beads	2 in the bead stacks	2	Yes

Shape check

Pieces simulated from the stitch counts and gauge.

Assumptions you may want to adjust

- Rib count assumed 6 around (3–4 visible from the front).

THANK YOU Thank you for making this ornament. Happy crocheting!
